WELCOME

Let nature nurture you on a daily basis, whether at home or in a commercial space with foliage design and styling by The Coastal Succulent.

Since 2013, The Coastal Succulent has specialized in both living and faux foliage design, pairing plants with unique containers that make a statement in any space. Interiorscapes such as living walls, moss bowls, curated artificial succulent arrangements, and custom installations are staples of The Coastal Succulent design team. Founding members Brandon McKeown and Thurston Pope strive to create one-of-a-kind pieces for all interior and exterior design styles working hand in hand with local and national interior designers. Whether planning for a second home or giving new life to a primary residence, The Coastal Succulent takes plant styling to a new level!

INSTALLATIONS

Make a statement with one of our large installations! From moss walls to large planters to in-ground plant design. The Coastal Succulent offers a wide range of design elements to showcase green space in any setting.

INTERIORS

Whether looking for low maintenance or no maintenance foliage, The Coastal Succulent offers a wide range of real and faux plant design options for all spaces. Offerings include small accent pieces all the way to large interiorscapes. Our design team assists in adding that final touch that brings the outside in.

OUTDOORS

From planters to in-ground installations, The Coastal Succulent offers multiple ways to add green to any outdoor space. Need a favorite container refreshed? Consider it done. Need a unique planter sourced and planted? The Coastal Succulent can help. In ground succulent gardens are always a favorite as well.
